

CARDIOVASCULAR DISEASE

A Correction to the Research Article Titled: “Computationally Generated Cardiac Biomarkers for Risk Stratification After Acute Coronary Syndrome” by Z. Syed, C. M. Stultz, B. M. Scirica, J. V. Guttag

There was an error in the Table 5 headings. The headings Precision and Recall were incorrectly switched in the published table. This error has been rectified in the corrected article. The sentence at the bottom of page 3 has been altered to reflect this change. It now reads “The prediction rule of LVEF < 40% OR (MV and HRM) increased the recall to almost 49% from 32% while maintaining roughly the same level of precision.” The corrected online version of the article is at <http://stm.sciencemag.org/content/3/102/102ra95.full>, and the corrected PDF version of the article is at <http://stm.sciencemag.org/content/3/102/102ra95.full.pdf>.
