Fig. S1. LACRN governance. The steering committee is responsible for overseeing all U.S.–L.A. CRN studies, making decisions regarding implementation of clinical research studies, developing infrastructure for the network, monitoring the progress of studies, and ensuring the proper sharing of specimens and data generated by the U.S.–L.A. CRN and proper publication of the network’s data. The steering committee is supported by a data coordination and analysis team, comprised of experts in all study disciplines and a Data Sharing and Publications Committee, along with discipline-based operational committees comprised of expertise from all countries, with guidance from US-NCI, including Informatics & Data Management, Epidemiology, Biobanking, Pathology, Clinical and Surgical Oncology, Pathology, Basic Research & Applied Technologies, Biostatistics, and Patient Navigation.
